February 2005

RJ45-RJ12 DG+ Conversion Caps

Molex Premise Networks is pleased to announce RJ45-RJ12 DG+ Conversion Caps. The Conversion Cap prevents computer RJ45 patch cord from plugging into active voice port. Conversion Caps can be installed in all Euromod, Legrand style (22.5x45), Contura, ABB Tango and DIN 49075 modules, built on DataGate Plus connector.

For simple port identification, Conversion Caps will be available in four colour options (yellow, blue, red and green).

Products will be available from 2005, April 1st.

Should you have any queries regarding this release, please contact me on +48 22 32 60 720 or mbujak@molex.com.

Yours sincerely

Marcin Bujak
Product Manager

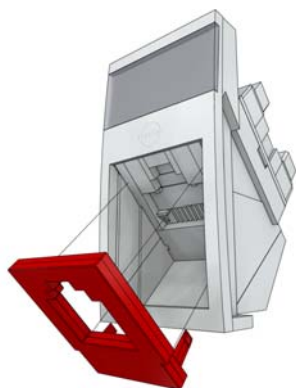

FEATURES SUMMARY

The Conversion Cap prevents computer RJ45 patch cord from plugging into active voice port. Conversion Caps can be installed in all Euromod, Legrand style 22.5x45, Contura, ABB Tango and DIN 49075 modules, built on DataGate Plus connector. For simple port identification, Conversion Caps will be available in four colour options (yellow, blue, red and green).

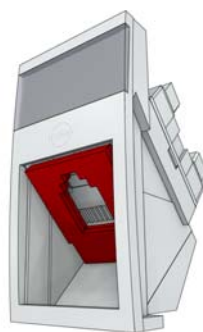

Installation on the example of Legrand style module 22.5x45mm (MLG-00021-02)

1.

2.

Note: Conversion Caps can be installed in all Euromod, Legrand style (22.5x45), Contura, ABB Tango and DIN 49075 modules, built on DataGate Plus connector.
